

## **PSEG Energy Insights**

February 2016

### **A Warm Welcome to 2016!**

New Jersey made it through the January blizzard. Fortunately for PSE&G's customers, our people and systems performed exceptionally well, despite the adverse weather conditions that made travel treacherous and working conditions less than ideal. It is clear that the upgrades we have made to our infrastructure, plus all the preparations we made for this storm, served us and our customers well. As key partners in helping us convey information during storms, such as the one we just experienced, we thank you for your cooperation and support.

Most Sincerely,

**David Hollenbeck**- *Regional Public Affairs Manager*

## Accelerating the Modernization of Our Infrastructure

Late in 2015, Public Service Electric and Gas Company (PSE&G) received approval from the New Jersey Board of Public Utilities for a three-year, \$905 million program to expedite the replacement of aging gas pipes.

## PSE&G Reminds Customers to Apply for Payment Assistance Programs

Even with the lower cost of natural gas and bill credits this winter, many customers still struggle to pay their heating bills. The good news is that help is available through **Low Income Home Energy Assistance Program (LIHEAP)**, where the average benefit of \$300 can go toward heating bills.

## Star Ledger advertorial – The Energy You Depend On – For Less

In case you missed it, inside is a look at a PSEG recent advertorial that appeared in the Star Ledger. Low-cost natural gas is saving our customers hundreds of dollars on their gas bills – and we're delighted to pass on even more savings to our customers as the temperature drops.
